$\textbf{Spring Plungers} \boldsymbol{\cdot} \textbf{smooth, with collar and ball}$

22080.0406

Product Description

Spring plungers can be used for locating or for applying pressure, as a detent or for ejection.

Material

Body

· Thermoplastic POM, blue

Rall

· Stainless steel, hardened

Spring

Stainless steel

Assembly

A tolerance of H7 is recommended for the locating hole of d_1 .

Characteristic

Standard spring load: no marking

Light spring load

Standard spring load

Heavy spring load

More information

Notes

Customized design on request. Spring plungers are specially tested for spring range and forces.

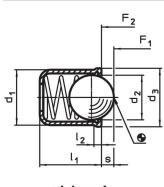

References

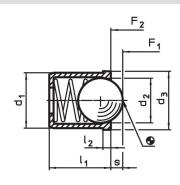

Calculation of indexing resistance, please refer to appendix - Technical Data - Version with higher spring forces see "EH 22080. Spring Plungers, smooth, long, with

collar and ball". Further products

- Spring Plungers, with collar and ball, front slot
