

## BALL LOCK PINS

# LEADERS IN THE METRIC RANGE: THE CHOICE IS YOURS

We offer more than 2,000 different variants including matching accessories, the selection is enormous.

The applications the products can be used for are almost as manifold as our product selection. Fixing, locking, connecting, adjusting and quickly changing different positions. Better yet, all of these operations are self-locking and do not require additional tools. Other key benefits of ball lock pins are their unique ability to withstand enormous shearing loads and their perfect resistance to corrosion and, thus, wear.
