Ball Lock Pins · self-locking, with safety handle

22340.1089

Product Description

For quick fastening, locking, adjusting, changing and securing. Quickly and easily unlockable for frequently repeated connections.
All versions are corrosion resistant. When using stainless steel 1.4542: high-strength, hardened, abrasion resistant pin with high load capacity.
Robust safety handle (press button not overlaying). Shape of grip protects from unintentional use of the press button.

Material

Pin part
• Stainless steel 1.4305

Handle
• Stainless steel

Press button
• Stainless steel

Spring
• Stainless steel

Operation

The balls are unlocked by pressing the button.

Characteristic

Types from stainless steel 1.4542 with marking below the balls.

More information

### Notes

Customized design on request.

Accessories

Can easily be fitted with retaining cable EH 22400.
