

Expander® Sealing Plugs · with pull-anchor

22880.0408

Product Description

Expander® sealing plugs are used for safe, quick and economic sealing of bore holes in fluid technology, e.g. hydraulic drilling holes in jig and fixture construction. When using sealing plugs with pull-anchor, assembly is made by means of user friendly assembly devices. Body and pin are pre-assembled and suitable for automated processing. **Please refer to the technical data following these product information pages.**

Material

Body

- Case-hardened steel, annealed

Pin

- Steel
